

Name: Cristal, Mary Kristine Anne L.

Laboratory 10: Comparative Resume Generation using Multiple LLMs

SECTION 1 – Final Prompt

Create a resume that is clean, modern, and well-structured. Suitable for a 3rd year Civil Engineering student applying for internships or entry-level roles. Make it concise but impactful (no unnecessary words) and use strong action verbs and professional tone. For the formatting, keep it within one page, use bullet points, and make it easy to scan and read.

Here are my personal details:

Full Name: Mary Kristine Anne L. Cristal

Email: mkalcrystal@addu.edu.ph

Education:

Elementary - San Pedro College, BED

High School- San Pedro College, BED

Senior High School - Mapua Malayan Colleges Mindanao

College: Ateneo de Davao University (Not Graduated yet)

Skills: AutoCAD, Excel, basic surveying, and structural concepts

Experience and Academic Projects:

- Developed structural and design solutions for small-scale engineering projects
- Created technical drawings and layouts using AutoCAD
- Conducted basic surveying activities including leveling and site measurements

SECTION 2 – LLM OUTPUTS

A. Output From LLM#1 (ChatGPT)

MARY KRISTINE ANNE L. CRISTAL

 mkalcristal@addu.edu.ph

OBJECTIVE

Detail-oriented and motivated 3rd Year Civil Engineering student seeking an internship or entry-level role to apply technical knowledge in design, analysis, and construction. Committed to contributing effectively while gaining practical industry experience.

EDUCATION

Bachelor of Science in Civil Engineering (*Ongoing*)

Ateneo de Davao University

Senior High School

Mapua Malayan Colleges Mindanao

High School

San Pedro College, BED

Elementary

San Pedro College, BED

SKILLS

- Proficient in AutoCAD for drafting and basic design layouts
- Skilled in Microsoft Excel for data organization and analysis
- Knowledge of basic surveying techniques (leveling, measurement, mapping)
- Understanding of structural concepts and load analysis
- Strong mathematical and analytical abilities
- Ability to read and interpret engineering drawings
- Effective problem-solving and critical thinking

- Good time management and organizational skills
 - Clear written and verbal communication
-

RELEVANT EXPERIENCE

Academic Projects (Civil Engineering)

- Prepared engineering drawings and layouts using AutoCAD
 - Applied structural concepts in analyzing loads for design tasks
 - Conducted basic surveying exercises including leveling and site measurements
 - Collaborated in group projects involving planning and infrastructure design
 - Presented technical findings and project proposals clearly and concisely
-

TRAININGS / SEMINARS

- Basic Occupational Safety and Health Awareness (Construction)
 - Attended engineering-related webinars and workshops
-

B. Output from LLM#2 (Gemini)

EDUCATION

Ateneo de Davao University | *Davao City Bachelor of Science in Civil Engineering* | 2023 – Present

- Current Status: 3rd Year Student
- Relevant Coursework: Structural Theory, Fluid Mechanics, Geotechnical Engineering, Highway Engineering, and Advanced Surveying.

Mapúa Malayan Colleges Mindanao | *Davao City Senior High School – STEM Strand* | [2023]

San Pedro College (Basic Education Department) | *Davao City Secondary and Elementary Education*

TECHNICAL SKILLS

- Design & Drafting: AutoCAD (2D/3D), Technical Drawing, Blueprint Interpretation.
 - Engineering: Basic Land Surveying (Leveling, Site Measurements), Structural Concepts.
 - Software: Microsoft Excel (Data Management/Analysis), MS Office Suite.
 - Core Competencies: Technical Documentation, Analytical Thinking, Project Coordination.
-

ACADEMIC PROJECTS & EXPERIENCE

Engineering Design & Structural Analysis | *Ateneo de Davao University*

- Developed structural and design solutions for small-scale engineering projects, applying core theoretical concepts to practical models.
- Produced precise technical drawings and detailed layouts using AutoCAD to meet project specifications and safety standards.
- Analyzed structural requirements to ensure design integrity and material efficiency.

Field Surveying & Site Assessment | *Ateneo de Davao University*

- Conducted basic surveying activities, including leveling and topographic site measurements, to establish accurate project baselines.
 - Processed field data to assist in the creation of site maps and elevation profiles.
 - Collaborated with a technical team to execute field procedures following standard engineering protocols.
-

ORGANIZATIONS & LEADERSHIP

Member | *Philippine Institute of Civil Engineers (PICE) – Student Chapter*

- Participating in industry seminars and technical workshops focused on modern construction methodologies and infrastructure development.

CERTIFICATIONS & HONORS

- Proficiency: AutoCAD for Civil Engineering, [2024]
- Award: Dean's Lister Awardee, [2025]

SECTION 3 – Comparison Table

CRITERIA	CHATGPT	GEMINI
Structure	It has a simple and standard sections with little to no changes.	It has more changes and a much more detailed sections.
Clarity	Very clear and easy to read; minimal content avoids overload.	Clear but more dense; includes more details which may require careful reading.
Formatting	Minimal, clean, but very hard to scan.	Still minimal and clean, but slightly more complex because of the details.
Overall Quality	The ChatGPT version is more simple, clean, but some details are missing. No significant changes are present.	The Gemini version is more detailed, structured, and professionally impressive, with deeper content such as projects, coursework, and organizations.

Section 4 – Reflection

Reflecting on the resume generation process, Gemini performed significantly better than ChatGPT by shifting the focus from a general student profile to a specialized engineering candidate. While ChatGPT provided a functional and clear document, the details were a bit missing, the AI did not refine it to my liking in comparison to Gemini.

The primary differences observed on the two outputs is the content depth. ChatGPT was basic and safe, good for general use. But for the Gemini, it was more detailed and customized as it includes projects, coursework, and organizations. Also, I noticed that their profession tone was different. Gemini was more polished and tailored compared to the other one.

In the final resume, I made improvements to skills and experience section. I made an elaborate version of it with the help of LLM, I emphasized accuracy will making in simple to keep the document concise.

Ultimately, I learned that prompting is an iterative dialogue. A simple prompt yields a template, but adding specific details about coursework, software, and formatting constraints allows the AI to act as a career strategist rather than just a word processor. You have to make sure that the prompt will be specific and has clear guidelines on what you want your results to be.

Section 5 – Final Resume

PROFILE

Motivated Civil Engineering student with strong technical foundation and hands-on project experience. Skilled in design, drafting, and surveying, with a commitment to applying engineering principles to practical solutions. Seeking internship opportunities to contribute to real-world projects while further developing professional expertise.
